

# Powering Down the Dell Precision T3400

This guide will show you how to properly power down the Dell Precision T3400 in order to begin working on the PC.

Written By: Jenalina Santiago

## Step 1 — Power down the PC.

- If your PC is on, shut it down.
  - Unplug the PC from the wall.
  - Disconnect the power cable from the tower, unplug keyboards, monitors, or any other devices, and remove any USB devices.
- ⓘ Press the power button after completely shutting down the PC. This will "ground" the motherboard, preventing any short circuiting from occurring.

---

To reassemble your device, follow these instructions in reverse order.
